

# Tesla Solar Inverter

## Owner's Guide

Track your solar production and view the status of your Solar Inverter in the Tesla app.

# Connectivity

Your Solar Inverter sends solar energy and power data to the Tesla app via a Wi-Fi connection.

Learn how to change your connection at [tesla.com/support/energy/solar-inverter/connectivity](https://tesla.com/support/energy/solar-inverter/connectivity)

# How does it work?

# Turning your system on or off

To turn your system on or off, flip the AC breaker labeled 'PV Inverter' in the main panel.
